Allflex

UTT3S Applicator

Making the attachment of animal identification devices **simpler**, **smoother** and **safer**.

When you're tagging animals having the right tool can make all the difference.

The new UTT3S is our next generation animal livestock device applicator with innovating mechanisms, an unique ergonomic design and greatly reduced application force.

The UTT3S applicator takes tagging animals to the next level making the attachment of animal identification devices **simpler**, **smoother** and **safer***.

SPARE PIN

Conveniently located in the handle of the applicator, ensuring a pin is easily accessible when needed.

BUILT TO LAST

The smart, versatile, robust design enables long-term use to a wide variety of species in the harshest farm environments.

EASY INSERT CHANGE

Enables efficient switching between two-piece visual and electronic identification devices.

SIMPLE TO USE

Easy-squeeze mechanism enabling the application of devices with very little force.

SMOOTH AND SAFE

Enhanced safety features including reduced 'pinch points' and less application force protects and keeps the users' hand safe while applying tags and devices.

SUPPORTED TAGS

The UTT3S Applicator can be used to apply most types of Allflex two-piece ear tags:[1]

· Allflex two-piece visual identification tags (VID)

· Allflex two-piece electronic identification tags (EID)

· Allflex monitoring ear tags

[1]The UTT3S Applicator does not work with piglet tags, lightweight EID button tags for cattle and swine, AXA tags, or one-piece tags.
